## Maïke Achterberg

Scientist | Chemical Regulation and Food Safety  
Mannheim  
+44 (0) 1423 878966 | [machterberg@exponent.com](mailto:machterberg@exponent.com)

### Professional Profile

Ms Achterberg specializes in regulatory ecotoxicology for the purpose of registration of pesticides within Europe. She is currently responsible for evaluating ecotoxicological data and conducting environmental risk assessment according to EU legislation, e.g. data gap analyses, study monitoring, study evaluation, dossier writing and post-submission support according to the national specific requirements for European registrations.

Ms Achterberg holds a MSc in environmental sciences with a focus on ecotoxicology. Prior to joining Exponent, she gained experience in conducting and planning terrestrial field experiments with a focus on arthropods as well as in interpretation and evaluation of experimental data.

Prior to joining Exponent, she worked as Principal investigator, planning and conducting field trials with a CRO in Germany and as a Regulatory Ecotoxicologist with a consultancy in Germany.

### Academic Credentials & Professional Honors

M.Sc., Environmental Science, University of Giessen, Germany, 2019

### Prior Experience

Regulatory Ecotoxicologist, BASF, 2018 — 2019

Principal Investigator in Field Studies, Tier 3 solutions GmbH, 2019 - 2022

### Additional Education & Training

Certificate of expertise in the use of plant protection products, Germany, 2020

Postgraduate studies in ecotoxicology (SETAC GLB and GDCh)
